

ParamontEO

An Electrical Supply Company

Value-Added Services

"[PEO] has always been my favorite vendor to work with ... its standard of professionalism is something many other companies could take a lesson from."

Diane, All Industrial Electric, Inc.

"[Paramont EO's] communication and delivering strategies ... are something we need to document for future jobs. As fast as the wire is coming, it's getting pulled-eliminating theft and storage issues."

Jayson, Aldridge Electric

"All my oversight electricians have said nothing but good things about you when ordering material. They are getting the right stuff ... in a timely manner."

Franky, Complete Electrical Services

"In all my years, I've never had a bad experience; if an error was made, it was reconciled in a fast and professional way."

Phil, Seminary Electric

A close-up photograph of a metallic sign. The word "Paramont" is written in large, raised, serif capital letters. Below it, the words "An Electric" are written in smaller, raised, sans-serif capital letters. The sign has a brushed metal texture and is mounted on a wall.

Paramont
An Electric

“PEO has provided us with exceptional service for over 20 years. Their salespeople are willing and able to offer assistance on projects from commencement through completion ... it’s obvious that Paramount’s commitment to quality and service starts with upper management and continues through their production staff.”

Katie, Canino Electric Co.

“[We] have long looked to PEO as an important factor ... in launching new and innovative products in the electrical distribution channel.”

Jeremiah, Broan-NuTone

“Your drivers consistently go above and beyond ... by getting deliveries to us early and doing whatever it takes to help out.”

Scott, Current CEC

get empowered

Switchgear Design/Build

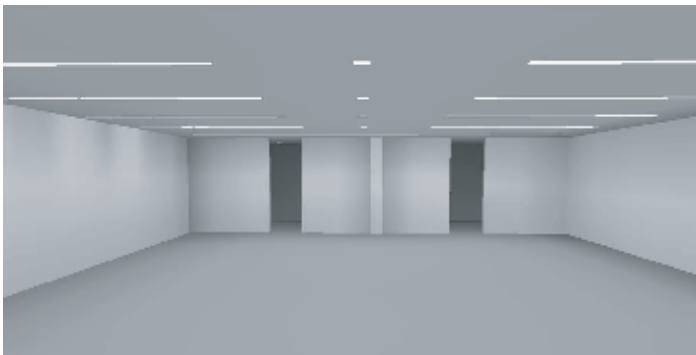

Over 100 combined years of experience fuels our dedicated team, utilizing the same product configuration programs that manufacturers use to provide quotations, drawings and submittal products. Our start-to-finish philosophy ensures you'll be talking to the same person throughout the life of your project, giving you the power of confidence.

get bright

Lighting
Design/Build

We live to integrate the art and science of illumination into every design/build project. From 3D photometric renderings and heat maps to lumens and foot-candles, fixture schedules and more- your build shines like it's supposed to.

get prepped

Dedicated Pre-Fabrication
Space & Shared Facilities

Pre-fabrication on-site can be challenging. One minute you've found your groove, the next you're asked to relocate so another contractor can get their work done. Our dedicated pre-fab spaces puts our warehouse at your fingertips, so your project zips along without delay.

**Did we mention we
have conference
and training facilities
available too?**

get in phase

Stage & Phase

Our Project Managers work hand-in-hand with you to identify the most cost-effective and reliable products for your projects. They collaborate with our experienced warehouse staff to split and repackage your material exactly the way you want it, reducing lead times and on-site waste.
